VOL. I.

THE TOWN COUNCIL BUYS SITE FOR HALL

Pays \$1,200 for a Centrally Located Piece of Realty to be Used for a Fire Station at First and Afterwards for a Town Hall.

The regular monthly meeting of the city council was held on Tuesday evening, with W. G. Puglisi in the chair. Mr. J. Johnson, secretary-treasurer, Mr. L. Marshall, attendance, and a young sidewalk worker attended. The laying of sidewalks was adjourned and a lot was purchased for a site for a fire hall, and later on it will be used for a town hall.

The matter of licensing dogs was discussed. The city clerk was instructed to secure a special tags, and he was also directed to write to the provincial government for the purpose of ascertaining where the dog could be produced. The city clerk is to be responsible for the cost of 5 per cent. on all dog license fees collected.

The license fee for theatrical performances was fixed at \$5 for each performance.

It was decided that the license fees for the following would be \$1 for a single table and \$2 for each additional table. For bowling alleys the license fee would be \$1 for each and \$5 for each additional alley.

The following bills were ordered paid: Mr. J. Johnson, \$1; Frank Simola, \$2.50.

In order to get the new and other features, fire apparatus and other public improvements Secretary Marston had been instructed to report on the condition of the town property in Bassano. He stated that it amounted to \$10,000, which with a 5 per cent. interest would amount to a revenue of \$1,500-\$1,600, and at ten million dollars \$3,000.

Only one bid was received, for laying sidewalks six feet wide around block 7, from lot 3 in the east corner of block 7, from lot 3 in the west corner of block 2, and on the south side of block 6 and from the southwest corner of block 6.

The bid was irregular, inasmuch as the tenderer, Mr. Wood, did not bid for the entire job and the bid was not valid, and it was, after a considerable delay, disallowed.

Mr. Wright, who had been asked to name the materials which should be needed than those specified in the bid received, by W. G. and as the bid was irregular, he was asked if his company in town were present, when he requested to give their views.

Mr. Wright, agent of the Crown Land Surveyors, said that he had first decided what sort of materials should be used and then advertise for

tenders, and, if the materials wanted were in stock, the lumber concern could then put in the required material at the lowest price, especially in front of business places, where the traffic would be the heaviest.

Mr. J. Coleman, of the Bowman-Sims lumber company, said that the lumber

was much used and said that 3 by 4, if cut to 6' 6" would make a fairly substantial sidewalk.

Mr. Hawkins, of the Riverside Lumber Co., said that 2 by 6' stringers would be strong enough to hold the planks in all right.

The council should clearly designate what sort of sidewalk it wanted.

It should also be specified whether there should be spaces between the planks or not.

Whether the planks should be set

vertically against each other.

Mr. J. Johnson, town councilman

Johnson seconded the following, which

he called for sidewalks will be 4' 4" stringers, the stringers to be 2' 6" apart, and the planks to be 6' 6" in length; that the walls be laid flat, so that they will be 6' 6" apart.

That the work be finished by Jan. 1st; that tenders be all by Friday, Dec. 15th.

The secretary was instructed to ascertain the cost of 6' 6" stringers which

are now north of 10¢ per linear foot.

The city will shortly lay a circular

sidewalk around the grounds

in the fire hall for at least two men so that trees can be kept up well from freezing in winter.

The party was adjourned by Mayor Playford, which was preceded by Councilman Marston, who told 11, Block 4, on Main Street, that he had been elected to the town council.

The secretary was instructed to ascertain the cost of 6' 6" stringers which

The secretary was instructed

CANADA AS A PEACE FACTOR

VETERAN BELIEVES CANADA IS
A PEACE MEDIUM

Sir Richard Cartwright is a
Member at a Non-Political Banquet
and Reviews Contingent Events Since
He Entered the Political Arena—
Important Changes that have Taken
Place Since Before Confederation.

Ottawa, April 20.—Sir Richard Cartwright, a member of time-honored Canadian government leaders in the senate, is the author of a paper he has learned recently, is considering making for a campaign to prevent the whole of Canada from seceding from the United States, which has grown to proportions that alarm him.

The paper will be submitted to the Canadian government for investigation into the situation.

The senator has given the question much thought because of the liberal Canadian

minutes of time he has spent in the United States, of his travels in America, and the number of hours he has been in the parliament of the United States, which he has witnessed since he became a member of parliament in the early days.

He said he saw in the growth and development of the United States, spreading race on continent, in Britain, Australia and elsewhere, an opportunity for the Canadian people to stand up and say, "We are not Englishmen, we are Saxons which would dominate the world and give an assurance of peace and safety to all the world, in the movement of great powers which at the present time spend two-thirds of their resources preparing to cut each other's throats."

Richard Cartwright believed that Canada owing to its proximity to both Great Britain and the United States and with its fresh life and vigor, might be the best medium to bring about such an all-inclusive international speaking medium. If such a medium could be found, he seriously proposed the alliance of all countries of the world who dare treat the people of right with changes which have occurred in Canada since confederation days.

"Looking back over that long vista of years, it is evident that the enormous changes which have taken place in Canada during the past forty years, when the population was less than one million, and the calcium was boiling over both in Canada and elsewhere. At that moment the world was in the grip of the most terrible and awful war of the century, at that moment relations now at hand between the United States and our sister provinces had been strained to the very point of disunion, and stood on the brink of civil war."

Two Richard Cartwrights have very little doubt but that the present crisis which was being carried on in the United States, was the utter disruption of union between two Canadas."

Conf. 12.—A sensitive man.

Ottawa, April 20.—The weather on April 19 was the coldest in fifteen years. The thermometer said 35 degrees. Friday last was 70 degrees. Saturday was 65 degrees, and on Sunday, the temperature on that day was 20 degrees. The spring however, has been unusually dry and cold.

This conflict of heat and cold and the existent extremes caused much to wonder what would become of us.

It is not forthcoming, need everywhere. Wheat and corn in Illinois, Indiana, Ohio, Michigan, and Missouri. The situation in Kansas and Nebraska is picture as were the others, while in the spring wheat areas, estimated at 3,000,000 acres of spring wheat, and other grain areas needed two-thirds of the southern crop will be replanted or planted entirely.

WHAT CLASSES WILL ENTER

BRITAIN WILL NOT DICTATE ON
IMMIGRATION QUESTION

The Master of Selection of Immigrants to Canada by Sir C. Seelye said to the Canadian Government—British Will Make Such Representations as Found Proper, and Believe That Will Be Accepted.

Morton E. Cross, executive of the Canadian Immigration Commission, has announced that the commission's report on Canadian immigration will be ready in a few days. Advance sheets of the report show that 60,000 Americans emigrated to Canada from the border states.

The master of selection of immigrants to Canada by Sir C. Seelye said to the Canadian Government—British Will Make Such Representations as Found Proper, and Believe That Will Be Accepted.

London.—In the House of Commons, when asked by Sir C. Kinchla Conroy regarding the recent alterations made in the Canadian immigration laws, the Canadian representative said he was aware of the effect of the new laws and the fact that no American could be admitted to Canada without a visa.

The master of selection of immigrants to Canada by Sir C. Seelye said to the Canadian Government—British Will Make Such Representations as Found Proper, and Believe That Will Be Accepted.

London.—In the House of Commons, when asked by Sir C. Kinchla Conroy regarding the recent alterations made in the Canadian immigration laws, the Canadian representative said he was aware of the effect of the new laws and the fact that no American could be admitted to Canada without a visa.

Mr. Cross, executive of the Canadian Immigration Commission, has announced that the commission's report on Canadian immigration will be ready in a few days. Advance sheets of the report show that 60,000 Americans emigrated to Canada from the border states.
